This is an author, title, and subject index to the articles, editorials, and book reviews published in *Middle East International* during 1986. All matter except the abstracts from Arab and Israeli presses and the letter which traditionally appears on the back page of each issue are represented here. The numbers in bold type are issue numbers, followed by page numbers in regular type. The titles of books reviewed in *Middle East International* are indexed under the heading Book reviews. The names of nations and organisations are given preference over the names of the individuals who represent them. These persons, including prominent statesmen, are indexed under their own names only when the article is about them as individuals or when they are quoted extensively or when their opinions or biases are prominent in the article being indexed. The names of contributors of published material are in bold type.

By Patricia J. Case
